

## Visas

Most of the foreign participants and accompanying persons will have to obtain a visa to enter Russia. Everybody is responsible for their own visa arrangements. However, the organizers will make their best to help where they can.

For information on visas to Russia please see: [Visas for Russia](#)

Guests from some countries do not need visa: please see <http://www.saint-petersburg.com/russian-visa/visa-free-travel/>

Please note that the information on these web pages may be slightly out of date, so you are advised to search the current information on the web pages of the Russian Consulates in your countries.

For those guests who need a letter of **invitation to obtain a visa**, please email LOC with the header "**VISA**" to get a prompt response.

Please note that, in order to issue an official letter of invitation which is desirable to obtain the Russian visa, we need the following information:

- 1) full name as per passport
- 2) date of birth (day, month, year)
- 3) place of birth (city, country)
- 4) citizenship
- 5) permanent residence (city, country)
- 6) passport number, date of issue, expiry date
- 7) affiliation (full name, address, tel., fax)

Please send this information to the Organizing Committee at your earliest convenience (see the addresses in our web page).

For guests from **EU countries**, there is a simplified order of getting visa for science and culture related visits. However, we need the above listed information for the invitations as well.

The time necessary to obtain the visa depends on the country. Please look for the corresponding information on the site of Russian Consular Department in your country. For EU citizens, a typical time for issuing a visa is one to two weeks after you visit the Russian Consulate or a visa center and present the documents including the scanned invitation letter.
